Screens: Screen1

A Scratch script for screen "Screen1". It starts with a "when Button1 Clicked" hat block. Inside, there's a "do" loop. The loop contains an "if" condition: "if [PasswordTextBox1 Text] = [1234]". If true, it executes "open another screen screenName [Screen2]". If false, it executes "set [PasswordTextBox1 Text] to [0]".
